

City of Lenexa, Kansas Fire Department

"CFAI • Internationally Accredited Agency"

In order to better service your business, your employees and your patrons the Lenexa Fire Department is requesting you to register your Automatic External Defibrillator (AED) with the Mid American Regional Council. By doing this First Responders and Emergency Medical Dispatchers will be able to aid in the use and location of the AED during a medical emergency. Completing the form will only take a few minutes. The Mid-America Regional Council Emergency Rescue Committee (MARCER) has established an online registration system that will allow AED owners to meet state registration and notification requirements quickly and easily. Under Missouri and Kansas law, all AEDs must be registered with local emergency response agencies. Some cities in the region also have AED registration ordinances. When you use the MARCER online form to register your AED, your local EMS agency will automatically receive notification.

Please register your AED(s) at:

<http://www.marc.org/Emergency-Services-9-1-1/MARCER/Activities/AED-Registry/AED-Registration-Form>

For additional information registering your AED go to:

<http://www.marc.org/Emergency-Services-9-1-1/pdf/aed.aspx>

Your assistance is greatly appreciated.
